

EXECUTIVE BIOGRAPHIES

Leadership

Built by operators with institutional infrastructure DNA.

David Puth
Chairman, EightX Labs

Former CEO of CLS Group, the world's largest FX settlement system, where he led the institutional foundation for foreign exchange settlement across the world's major currencies. Chaired the BIS Market Participants Group. Former CEO of the Centre Consortium, the standards body behind USDC. Earlier in his career, head of Global Markets at State Street and Head of Currencies and Commodities at JP Morgan.

John Shipman
Founder and Chief Executive Officer, EightX Labs

PwC's Global Digital Assets Leader and Asia Financial Services Consulting Leader. Chief Commercial Officer at Centre, the Coinbase and Circle joint venture behind USDC. At NAB, COO and CTO, he managed AUD 130 billion in assets under management. Delivered retail and SME digital banks for Starling Bank in the UK and AMP Bank in Australia. Founding investor and Director of Xai, the Arbitrum Layer 3 chain enabling on-chain game economies.

Michael Harte
Co-Founder, EightX Labs

Group Chief Operations and Technology Officer at Barclays. COO of Santander UK. Earlier, Group Chief Information Officer at Commonwealth Bank of Australia. MIT Research Fellow at the Centre for Information Systems Research. Co-Founder of CaptureNow, a next-generation carbon removal asset platform partnered with Stanford and Cambridge.
